

CALLLED ON 12-30-88 AT 2:40P.M. GOT AN ANSWERING SERVICE AND LEFT  
A MESSAGE CALL RETURNED BY BARBARA JOHNSON THAT AFTERNOON  
CHANNEL 6 IS OUT TOLD HER OF A FILTER.

will stay like it is and you might as well get use to it. You will never be able to pick up  
channel 6 again and were not responsible for interference on radios, TV's, tape players ect."

People are being out money to see why their TV's and radios are not working right. People  
do not know why their having these electrical difficulties the past month or so, we hope this  
letter will let you know what is going on. As you read this letter please support this effort  
to solve this problem.

Many items and neccessary equipment is being effected in our households and bussinesses.  
TV's, radios, telephones, computers, and stereo systems. Tape players play the radio signals  
with the tape. Any electrical or battery operated playing instruments with speakers receive  
the radio station signals, burgular alarm system, and baby monitors also receive the radio  
station signals.

If your receiving the radio station signals on your TV, it will be blocked out, snowy with  
static, or a blank picture. On your stereo systems and radios you will frequently receive only  
KOKS radio signals or it will blend in with the station your wanting to listen to.

Many people are confined to their homes due to illness or age, also many young children  
t enjoy regular programing or items for enjoyment and entertainment.

We are not trying to put the KOKS FM radio station out of business, we are just wanting  
their radio signals not to interfere with our neccessary household and business items.

We have tried for over a month to get these problems solved. The radio station seems to  
think everything is okey, but we need to let the station know these problems exist.

These letters will be sent to neccessary offices so we can get help for the people  
receiving this radio interference. The only way we can stop this is by joining together and  
letting them know what is happening to the public at large. It is not right for anyone to  
monopolize or dictate the airways.

CALLED ON 1-3-89 AT 8:35 A.M. CHANNEL 6 IS OUT TOLD OF A FILTER

Are you having electrical difficulties due to the radio signals from KOKS FM radio station?

Most people in this area cannot receive channels 6, 15, or 8 during the day due to the radio programming of KOKS. Channel 12 is weak and some music is picked up on it during the daytime hours.

The radio station shuts down at 6:00 p.m. and starts again during the morning hours. This is only temporary, they are going to 24 hour broadcasting 100,000. watts very soon. *New 24 hr.*

We have been told by the KOKS radio station "We will be staying on the air, everything will stay like it is and you might as well get use to it. You will never be able to pick up channel 6 again and were not responsible for interference on radios, TV's, tape players ect."

ccupant,

Are you having electrical difficulties due to the radio signals from KOKS FM radio station?

Most people in this area cannot receive channels 6, 15, or 8 during the day due to the radio programming of KOKS. Channel 12 is weak and some music is picked up on it during the daytime hours.

The radio station shuts down at 6:00 p.m. and starts again during the morning hours. This is only temporary, they are going to 24 hour broadcasting 100,000. watts very soon. *now 24 hrs.*

We have been told by the KOKS radio station "We will be staying on the air, everything will stay like it is and you might as well get use to it. You will never be able to pick up channel 6 again and were not responsible for interference on radios, TV's, tape players ect."

People are being out money to see why their TV's and radios are not working right. People do not know why their having these electrical difficulties the past month or so, we hope this letter will let you know what is going on. As you read this letter please support this effort to solve this problem.

Many items and necessary equipment is being effected in our households and businesses. TV's, radios, telephones, computers, and stereo systems. Tape players play the radio signals with the tape. Any electrical or battery operated playing instruments with speakers receive the radio station signals, burgular alarm system, and baby monitors also receive the radio station signals.

If your receiving the radio station signals on your TV, it will be blocked out, snowy with static, or a blank picture. On your stereo systems and radios you will frequently receive only KOKS radio signals or it will blend in with the station your wanting to listen to.

Many people are confined to their homes due to illness or age, also many young children do not enjoy regular programming or items for enjoyment and entertainment.

We are not trying to put the KOKS FM radio station out of business, we are just wanting their radio signals not to interfere with our necessary household and business items.

We have tried for over a month to get these problems solved. The radio station seems to think everything is okay, but we need to let the station know these problems exist.

These letters will be sent to necessary offices so we can get help for the people receiving this radio interference. The only way we can stop this is by joining together and letting them know what is happening to the public at large. It is not right for anyone to monopolize or dictate the airways.

People do not know why their having these electrical difficulties the past month or so, we hope this letter will let you know what is going on. As you read this letter please support this effort to solve this problem.

Many items and neccessary equipment is being effected in our households and bussinesses. TV's, radios, telephones, computers, and stereo systems. Tape players play the radio signals with the tape. Any electrical or battery operated playing instruments with speakers receive the radio station signals, burgular alarm system, and baby monitors also receive the radio station signals.

If your receiving the radio station signals on your TV, it will be blocked out, snowy with static, or a blank picture. On your stereo systems and radios you will frequently receive only KOKS radio signals or it will blend in with the station your wanting to listen to.

Many people are confined to their homes due to illness or age, also many young children are enjoy regular programing or items for enjoyment and entertainment.

We are not trying to put the KOKS FM radio station out of business, we are just wanting their radio signals not to interfere with our neccessary household and business items.

We have tried for over a month to get these problems solved. The radio station seems to think everything is okay, but we need to let the station know these problems exist.

These letters will be sent to neccessary offices so we can get help for the people receiving this radio interference. The only way we can stop this is by joining together and letting them know what is happening to the public at large. It is not right for anyone to monopolize or dictate the airways.

CALLED ON 1-2-89 AT 1:30 P.M. THEY HAVE A BOOSTER TOLD OF A  
FILTER THAT MIGHT HELP.

Are you having electrical difficulties due to the radio signals from KOKS FM radio station?

Most people in this area cannot receive channels 6, 15, or 8 during the day due to the radio programing of KOKS. Channel 12 is weak and some music is picked up on it during the daytime hours.

The radio station shuts down at 6:00 p.m. and starts again during the morning hours. This is only temporary, they are going to 24 hour broadcasting 100,000. watts very soon. *New 24 hrs.*

We have been told by the KOKS radio station "We will be staying on the air, everything will stay like it is and you might as well get use to it. You will never be able to pick up channel 6 again and were not responsible for interference on radios, TV's, tape players ect."

People are being out money to see why their TV's and radios are not working right. People do not know why their having these electrical difficulties the past month or so, we hope this letter will let you know what is going on. As you read this letter please support this effort to solve this problem.
